## GRAPHIC & WEB DESIGNER

I've been practicing Graphic design for the past 10 years and had the chance to work with major companies such as Adidas, which provided me extensive knowledge and experience about prime design. I made Aliyah in January 2010 and started working in Minovus in September 2010.

My main focus in the last 3 years I've worked in this company was on Gambling and casual games for web and mobile. This includes responsive design, mobile app design and Flash. I'm eager to continue and grow as a Graphic designer and contribute my experience to innovative companies in Israel.
